EF

This technical drawing illustrates the assembly of a square table. The main view shows the four legs (1) attached to the underside of the square top frame (2). The top frame consists of four side rails (3) and four corner braces (4). Two circular insets provide detailed views of the assembly points. The left inset shows a corner joint where a leg (1) is secured to a side rail (3) using a bolt (5) and a washer (6). The right inset shows a corner joint where a leg (1) is secured to a corner brace (4) using a bolt (5) and a washer (6). The drawing uses standard technical notation, including dimension lines and numbered callouts to identify components and assembly points.
